new horizon MISSIONS

GIVING • GOING • DOING

Missions is the heartbeat of God and the lifeblood of New Horizon Church. In 1983 New Horizon began to hold services in the Fife Community Center. It was a small beginning for many things. Included in the initial membership were two families that we were honored as a church to send out as missionaries – Ron and Shirley DeVore and Paula and David Mahawon. We have since become involved in the building of both of these missions, as well as supporting local ministries and our own New Horizon Outreaches.

At New Horizon we believe that spreading the gospel requires us to minister to the practical needs of humanity. We direct our mission efforts towards compassionate endeavors and community development. These include medical care, schools, orphanages, housing for widows, and feeding programs all over the world.

Missions Pastor,

Joel Wolfe

Together, we can do more!

Giving

NHC is a generous body, GIVING \$325,754.59 over the past 6 years to support missions at home and abroad. The dollars that were selflessly given have made a huge impact in the lives of those involved. We have financed the Maternity Clinic in Mutukula, Uganda, the building of 5 homes for widows in India, and provided support for all the ministries listed in this book. It is a privilege to be able to make things happen in the natural and watch as people are drawn into salvation by the love of Christ shown them through practical compassion.

Going

NHC is an active body, GOING out to those in need. The NHC Outreach Team goes out to the motels of Fife and the streets of Tacoma, ministering love and life to those who live in difficult conditions. The NHC Missions Teams travel to other countries each year to minister God's love through many different avenues, including medical outreaches, building projects, crusades, and evangelism. We have traveled to Uganda, Kenya, Tanzania, Netherlands, and Thailand.

Doing

NHC is an effective body, DOING much to further the Kingdom through compassionate actions. Our Missions Teams have had a hand in building the Divine Hope Maternity Clinic from the ground up. We have also helped in building a dry goods store and coffee shop in Thailand to generate sustainable income and job training for the orphans and staff of Faith Village. We have staffed many medical clinics and taught health and wellness in remote villages. At New Horizon we love to roll up our sleeves and do the work of every type of ministry.

Africa - Various Locations

Ryan DeVore and Jesse
Crock, President and Vice-
President of WOMF.

World Outreach Ministry Foundation

In 1986, Pastor Steve Mayanja of Uganda met Ron and Shirley DeVore at a church in Federal Way. From that moment, the three struck out on an adventure that led to the formation of WOMF. They have seen thousands of salvation and established Bible schools, numerous churches, and orphanages across central Africa.

Ron and Shirley DeVore,
the founders of WOMF.

In 2015, Ron DeVore retired from WOMF, and the leadership of the ministry was passed on to four capable men. In 2016, WOMF lost three of these leaders in a tragic accident. Losing such incredible men shook the mission. WOMF has put together a strategic plan that will carry the mission forward into a new season of health and sustainability.

RYAN DEVORE

WOMF installed Ryan DeVore as President. Ryan holds the heart of the mission, having spent many years in Africa with his wife, and in the

Ugandan Bible College. Losing his father-in-law in the accident and his grandfather, Ron DeVore to old age, Ryan's involvement is both personal and purposeful to the mission. Ryan brings a wealth of management expertise and missional theology to the organization.

JESSE CROCK

WOMF also brought in Jesse Crock as Vice President. Jesse has expertise and experience in International Community Development, as well as Donor Engagement. Jesse and his wife also spent time living in Africa years ago with WOMF. In 2016, he answered the call to come on board to see this mission grow and impact communities across Africa.

GRATEFUL FOR SUPPORT

WOMF is incredibly thankful for your partnership with their mission. They could not continue ministering in the capacity at which they operate without your valued support.

SUPPORTING AND REIGNITING

In March of 2022, WOMF held a National Leadership Meeting with leaders from Rwanda, South Sudan, Congo, Burundi, and Uganda to pray, plan, and be empowered by Holy Spirit after the two-year

Facts about WOMF

There are more than 3,000 different groups of indigenous people living in Africa. They each have their own language and culture.

WOMF has been able to reach people all over Africa. They are working with pastors in Ghana, South Sudan, Uganda, Kenya, Rwanda, Burundi, Tanzania, and The Democratic Republic of Congo. WOMF focuses on church planting, evangelism, education, Bible college, crusades, women's empowerment, sustainable programs, medical outreach, prisons, and water wells.

lockdown from the pandemic. This conference was much needed to refresh and strengthen the leaders. They left with new vision and hope.

The reason I left you in Crete was that you might put in order what was left unfinished and appoint elders in every town, as I directed you." *Titus 1:5*

BUKOMANSIMBI ZONE: LAUNCHING KITEMI WORSHIP CENTRE

Apostle Steven Mayanja led a team to join Bukomansimbi Zone for a five-day Crusade and a discipleship seminar to launch the Kitemi Worship Centre Church, where they also ordained a Senior Pastor over the Centre. During the Crusade, a witchdoctor gave his life to Jesus and invited the WOMF team to destroy the temple of the gods he was worshipping. The team witnessed the power of the Holy Spirit and revival in the community. There were newly born-again believers, many of whom were baptized in the Holy Spirit and spoke in tongues for the first time!

DEDICATION OF JUNGO WORSHIP CENTRE

The Jungo Worship Centre started a year ago during the lockdown as an open-air crusade on a horn speaker. Even with no building, it became a place of revival. Many were transformed, revived, and turned to Jesus. Holy Spirit inspired the partners of WOMF to team up to send enough money to acquire land and build the Jungo Worship Centre, a church building, which was dedicated on March 13th, 2022. WOMF has been a vital part of birthing new churches and establishing new ministries across Africa.

The launch of Kitemi Worship Centre and the attendees of the five-day crusade in Bukomansimbi.

Steven Mayanja ordaining the new Senior Pastor and his wife over the Kitemi Worship Centre.

Children of all ages experiencing children's ministry at the Jungo Worship Centre.

Buyanja Worship Centre holding a church service. They are in the process of making bricks for a permanent building.

The Annual Zone General Leaders Retreat restored pastors and taught on the importance of being a servant leader and how to love your family as Jesus Christ does.

The WOMF apostolic team visited Kangave Worship Centre to rekindle their faith and zeal to complete their church building. The leaders are believing that the Lord will provide new land to expand their church.

Justus Twikirize, founder of Divine Hope Maternity Clinic, with his wife Rose (right) with Pastor Joel Wolfe.

Divine Hope Maternity Clinic

Mutukula is a small, remote village located in southern Uganda on the border of Tanzania. Mutukula is home to many refugees due to war with surrounding countries. These refugees lack basic needs of food, housing, schooling, and health care.

HISTORY OF MUTUKULA

Justus Twikirize felt the call of God to build Divine Hope Maternity Clinic in response to the great need he saw at the Sango Bay refugee camp. The plight of these refugees began with the Rwandan genocide in 1994. Surviving Rwandans fled to Tanzania for a short while before once again fleeing for their lives. In 2013, 5,000 refugees crossed the border into Uganda at Mutukula, seeking safety from the Tanzanian government. Ugandan government officials met them at the border and would not allow them to proceed into the

Health and Education Statistics

Only half of the population (54%) has access to improved drinking water, while only 24% have access to improved sanitation facilities. As such, infant/maternal mortality, child mortality, HIV/AIDS, pneumonia, and malaria are major challenges to the health system. The majority of the adult population (90%) is illiterate. This impacts the upward mobility of future generations.

country. Instead, the government set up a makeshift refugee camp called Sango Bay. In 2016, the refugees were allowed to relocate, although many have remained in the area surrounding Mutukula. These refugees are extremely poor, with no land or ability to provide for themselves. As they slowly absorb into the region, they remain

impoverished, at high-risk for malnutrition, and in need of medical care. The women and children suffer the most as they struggle to survive in such adverse conditions.

JUSTUS TWIKIRIZE

Justus was born and raised in Masaka, located between Kampala and Mutukula. In July of 2000, as a high school student, he attended a WOMF crusade where he accepted Christ as his savior. Justus sought out discipleship and grew in the Lord very quickly and became active in the

local church. He joined UCOM (the Ugandan side of the WOMF ministry) and trained as an HIV specialist, then attended nursing school. It was at this point that Justus began working in the Sango Bay Refugee Camp, specializing in maternity care. Justus held makeshift clinics in tents in the refugee camp and delivered many babies in the small mud huts of the camp. It was here that Justus Twikirize asked New Horizon to partner with him to meet their needs, as well as the needs of the general population in that region.

DESIRE OF SALVATION

Justus' greatest desire is to see his community find and develop a loving relationship with Christ. Every medical encounter includes prayer and an invitation to salvation. He and his team have had great success leading many to Christ. After meeting spiritual needs, the team then meets physical medical needs.

One of the many mothers receiving care from Divine Hope Maternity Clinic with her baby.

Joel Wolfe teaching Rose Twikirize how to use an ultrasound machine.

Uganda - Tanzania War

War broke out on the border of Uganda and Tanzania in October 1978 and continued until June 1979. The war severely harmed Tanzania's fragile economy and inflicted long-lasting damage to the region of Kagera, Tanzania.

HELP FROM NEW HORIZON

When NHC's missions team arrived in 2015, Justus was renting two small rooms where he ran his clinic and delivered babies. New Horizon raised funds to buy land and broke ground and began to build a five-room clinic. New Horizon supports the clinic monthly, and it's our dream to increase this amount to allow Justus to reach more women and children.

MATERNITY CLINIC AND GENERAL MEDICAL CARE

Justus regularly sees, on average, forty expectant mothers weekly. He provides each expectant mother with prenatal and basic medical care. Also, he and his small team provide an immunization clinic, seeing roughly twenty children and thirty mothers each week. Mothers will walk many miles for this service, since it is the only clinic in the area. Also,

the clinic partners with the Ugandan government to provide HIV/AIDS care to women in surrounding communities. Justus and his team provide health education to families, as well as a regular high protein feeding program for malnourished children.

SEED BANK PROJECT

During the pandemic, New Horizon supplied Justus and his team with hundreds of kilos of rice and beans for mothers and community members who were suffering from hunger. The Divine Hope Board wanted to shift to a more sustainable program, with the help of New Horizon Church, and start a seed bank. The first two seasons produced surplus which was sold to support the women. The third season experienced

drought and the plants yielded minimal harvest. New Horizon resupplied the seed bank and they have since had good return on their crops.

SUPPORT REQUEST

Justus and his team are asking for support to introduce new projects to advance the community. To be self-sustaining, they want to expand their gardens. They also want to add a chicken and piglet farm. This will provide sustenance for many families as well as an added financial stream for school fees and other necessities.

WOMEN'S EMPOWERMENT CENTER

Justus's wife, Rose Twikirize, has a degree in financial management. After realizing that many women in their community have no education, Rose desired to start a women's empowerment center. It is common for families to have no interest in educating young girls, and with the pandemic, schooling became inaccessible. Without income, many young girls steered toward prostitution. With inspiration from Susan Wesonga, Justus and Rose formed a team of five women to start the empowerment center. They purchased one sewing machine and trainers to teach sewing and hair dressing. So far, there are 48 women learning new skills to start earning sustainable income for their families.

STAND IN PRAYER

Please lift Justus up in prayer that he is given favor and funds to fulfill his vision in Mutukula, Uganda.

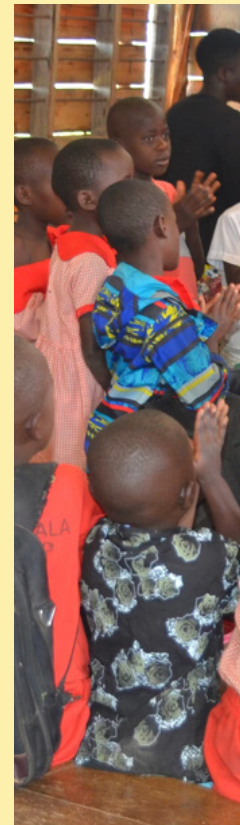

Justus teaching a community health class to the local women of Mutukula, Uganda.

Africa - Uganda

Bukumula - 2022

New Horizon has been blessed to work with Jacob and Hellen Alabyekkubo since 2020. Bukumula Worship Center and School started in small, overcrowded shacks. New Horizon has raised funds to provide the community with a clean water well, latrine, school building, and a fence around the school building. Additionally, we have provided school equipment such as desks, chalkboards, and outdoor sports equipment.

Buzzi - 2022

From the moment we met Andrew and Susan Wesonga there has been a wonderful God-ordained relationship. Since 2007, when they birthed Buzzi Worship Center, they have grown and expanded greatly. Their vision is to transform their community with the love of God through children's outreaches, worship services, the empowerment center and the soccer academy, to name a few.

MISSIONS ABROAD

Africa - Bukumula, Uganda

JACOB & HELLEN

Jacob and Hellen Alabyekkubo are the pastors and directors of Bukumula Worship Centre and School in Bukumula, Uganda. Shortly after Ron and Shirley DeVore founded WOMF and Yesu Akawagala church in Seguku, Uganda in 1989, a young man named Jacob, came to them from a poor village. He did not have the opportunity to study at a university, but he was hungry for the gospel. Jacob would spend entire days at Ron and Shirley's house watching VHS tapes from John Osteen to learn the Word of God. In 1992, Jacob took a pastorate in a small church near Seguku. Hellen was born abroad while

she was in high school. She graduated in 1995 with a degree in Agricultural Science. One day she was walking through the village and passed Jacob's church. Hellen heard the passionate prayer meeting and was drawn in. It was not long before the two knew the Lord was at work in their relationship.

STARTING IN BUKUMULA

Jacob and Hellen were married in 1996 and Jacob enrolled in the Yesu Akawagala Bible School. Shortly after Jacob graduated from Bible college, the couple was sent to a small, remote village, in the bush of Bukumula. The church was without a pastor and had fallen into degradation. Both Hellen and Jacob were willing to serve there for a short time,

Jacob and Hellen Alabyekkubo (right) with Joel, Steven Mayanja, and Shirley Devore, standing in front of the new school gate funded by NHC.

but God had other plans. They have served there for nearly 25 years now and have had incredible Kingdom victories.

OPENING A SCHOOL

While Jacob was pastoring, Hellen saw a great need in the children. She began holding children's services in their home. Hellen realized the need to formally school the children, and she obeyed the call to start the school. The Lord was faithful, and the school prospered.

EXPANSION NEEDED

Jacob and Hellen are believing God for expanding their building! They need an administration block, kitchen and dining hall, main hall, boarding section, and a pre-primary classroom. They are desiring to provide teachers with good text books, tables, chairs, and cupboards for their classes, plus an increase in teachers salaries. They thank God, who has helped them to plant many churches, now of which they over-see sixteen churches!

Buzzi Empowerment Center

ANDREW & SUSAN

Andrew and Susan Wesonga are pastoring a church of close to 500 members in a community of 70,000 families. They reach this community with the gospel of the kingdom of God using different church programs, dynamic children's outreach, biannual discipleship camps, youth inclusive programs, monthly marriage fellowships, evangelism outreach, school outreach fellowships, and married couples' fellowships.

Andrew and Susan (center) with four of five of their children and two boys they are fostering.

EMPOWERMENT PROGRAM

The Wesongas also lead a Community Empowerment Program that started with just women, but it now incorporates men and youth. Students learn how to sew - making clothing and bags - making jewelry, or baking - cookies, breads, and cakes. The program is held at the Buzzi Worship Center. New Horizon has been an integral part of founding the ministry, funding the building, and equipping the center. Based in Buzzi and using the same model, they have launched nine Empowerment Programs

in the country and two more in Kenya and Burundi.

SUPPORTING CHILDREN

Andrew and Susan reach out to families with young boys and girls that are talented and interested in playing soccer. Through their soccer academy, they partner with local schools to provide scholarships and education opportunities to these children, while developing their talents. With these students, they are able to hold outreaches, give bread to the community, and have a community cleaning program.

They currently host 39 boys and one girl in this academy. During the short school breaks, these children live at

MISSIONS ABROAD

Africa - Buzzi, Uganda

the Empowerment Center, visiting their families once a year. These are mostly vulnerable families that would not normally afford education for their children.

SAVINGS PROGRAM

Through a savings scheme that started in the church many years ago, all students that come through the Empowerment program are encouraged to save towards an asset that will help them start a personal business. This could be a sewing machine, hair dryer, food stall, or canteen. For example, they have three canteens where ladies sell bread from the Empowerment bakery and receive commission to support their businesses.

Wakiso Worship Centre

MISSIONS ABROAD

Lillian and Moses Opio
with Joel Wolfe.

LILLIAN KAWEEESA OPIO

Lillian Kaweesa Opio, her husband Moses, and two children, are the Youth Pastors at Wakiso Worship Centre where they have been ministering for the last five years. Their ministry is among the underprivileged youth of the town of Wakiso. The towns' people refer to the youth as "Ghetto Youth", because of the sordid life conditions and neighborhood in which these young people live. The church has been in the town of Wakiso since 2015, when it was

planted by Lillian's late father, Pastor Stephen Kaweesa, before his death. After he passed, God called Lillian's mom to take over the church, and later in 2018, God called Lillian to help her mom. Leaving her job and church, Lillian took the position of Youth Pastor.

WAKISO COMMUNITY NEED

The Ghetto Ministry, in particular, began early in 2022. The ghetto of Wakiso is a place of darkness, with over 5,000 youth between the ages of 14 and 25, lost to drugs, prostitution and crime. Many sleep in shacks on a stretch of the neighborhood encircling almost half the circumference of one of Kampala's largest satellite towns.

GHETTO MINISTRY

It all began with God calling Lillian in a dream to go to the "ghetto neighborhood" of Wakiso and begin preaching to the lost youth. God promised that if she obeyed, there would be a great harvest. After Lillian shared what God said, as a church, they supported her by sending a team to the ghetto to preach. From the very first week, youth began to profess Christ and come to church, where they were also enrolled into discipleship programs. Today, they have more than twenty young men and women who have professed Christ, and their lives have begun to be transformed. They began having all-night prayer meetings every Friday night to keep the youth off the streets.

Africa - Wakiso, Uganda

New Horizon has partnered by purchasing Bibles for the youth. Besides equipping them spiritually, they also enroll youth in their life-skills training programs, teaching them baking, cooking, tailoring, design, handicraft-making, and home economics.

CONTINUING GOD'S MISSION

Their target is to have at least one hundred youth before the end of 2022. The need of support is great to meet this goal. They want to offer more job skills such as pottery making, hairdressing, construction, etc. Also, many youth who profess Christ need basic support from the beginning, such as food and proper housing away from the ghetto environment.

MISSIONS ABROAD

Africa - Mutungo, Uganda

EMMANUEL & MARGARET

Mutungo Worship Centre was founded in 2007, by Pastors Emmanuel and Margaret Mukibi. They both went to Bible school and were sent out by WOMF. Mutungo Worship Centre is a vibrant, faith-filled church in the middle of a lost community. They are committed to ministering so every person may experience God's love, in their building and outside its four walls.

MINISTERING THROUGH HARDSHIP

During the pandemic, they continued to preach the Good News. It was a risk to

many, yet they were able to support their community. The location of their church, on a main highway, caused the government to choose them as a food distribution site. This allowed the whole community to receive food, as well as prayer and the gospel. As a result, many received Christ.

New Horizon was instrumental in supporting this family through very difficult times when all resources had run out. When Emmanuel, Margaret, and their children would lose hope, God provided just in time, through New Horizon, to strengthen their faith as a family.

EMPOWERMENT CENTER

The church has a community empowerment project. They

Emmanuel and Margaret
Mukiibi, Pastors of
Mutungo Worship Centre
and Leaders of the local
Empowerment Centre.

have sewing and hairdressing lessons, which attract many women in the area to come work. However, they lack enough space to host all these classes. Their plan is to expand by building a children's church and an empowerment center for the community to come and learn. They desire a two-story building to accommodate both ministries. The community empowerment is their main tool for outreach.

SOCCER ACADEMY

Another tool they use for outreach, is soccer. The

church holds a soccer academy which takes vulnerable young boys off of the streets and teaches them high-level soccer skills. This, in turn, allows the boys to win scholarships for school fees. The church also provides food and housing to the soccer team while they are learning.

It is their desire to increase support to advance the soccer academy, children's ministry, and empowerment center to continue to spread the gospel farther and wider.

Africa - Uganda

Wakiso - 2022

Lillian and Moses Opio have responded to the call of God as they work tirelessly with the youth in the ghetto of their community. These youth are lost in great darkness, yet they are coming to the light. Lillian and Moses offer these young people the way of salvation as well as training and education. All of this is working to lift them out of poverty of soul and spirit.

Muntungo - 2022

Margaret and Emmanuel Mukiibi have laid their lives down for the people of Muntungo. They began the work in 2007 and haven't looked back! They have taken a community transformation model, as they provide worship, prayer and the Word on a weekly basis, as well as skills training, a feeding program and a soccer academy. Both approaches work together to change people from the inside out.

TRUMPETS —of CHRIST

Thailand - Thaton

Paula and David Mahawon,
founders of Trumpets of
Christ International.

Trumpets of Christ

David and Paula have been in ministry for more that 38 years. They founded Trumpets of Christ International in 1992. TCI was to be used as a means of reaching the nations for Christ.

DAVID & PAULA MAHAWON

David Mahawon was born into the royal family of the Shan people, the son of a Shan princess. His Shan lineage has given him a heart that beats for the salvation of his people. Paula Mahawon is part Cherokee and was born in the US. Together they serve as missionaries to the Shan people located in the critical 10/40 window of Asia.

The Shan people have been an unreachable population

until as recently as 1953 when the first Christian missionaries arrived. The Shan people are friendly, but generally unresponsive to missionary outreach. In early 1995 David and Paula moved with their two small sons, Shan and Tai, to the notorious Golden Triangle in Northern Thailand. David and Paula began evangelizing and pioneering churches among the Shan people. TCI now has three established Victory Churches in Thailand, located in Thaton, Pang Mae Pa, and recently, in Chiang Mai.

The Shan People

The Shan people are the largest minority group in Myanmar, which borders Thailand, making up nearly one-tenth of the nation's total population. In the late 20th century they numbered more than 4 million.

ESTABLISHING BUILDINGS

Through a series of miracles, David and Paula purchased eighty-four acres of land in Thaton, Thailand. In early 1996, the Mahawon's established Faith Village Children's Home, a safe haven for children who had been boy soldiers in the Golden Triangle drug wars. To date, they have raised and educated more than 200 children, many of whom are now serving God in ministry or have become successful Christian business people.

MOVING LEADERSHIP

David and Paula passed the Senior Pastor position of Victory Church Thaton and Faith Village Children's home over to their oldest son, Shan,

and his wife Lindsey. David and Paula's decision to pass these two ministries to Shan was prayerfully made. This TCI decision enabled David and Paula to pursue the rest of the vision God had given them for reaching the nations.

PANDEMIC CHALLENGES

2020 brought new challenges for TCI and the Mahawons. While on a scheduled itinerary, David and Paula found themselves grounded in the U.S. because of Covid. Many churches they were scheduled to visit closed their doors and canceled guest speakers. At the same time, Thailand completely closed their provinces down and shut their borders to outsiders. Paula and David were stranded in Portland. They turned to God in prayer and felt they would be a blessing where they were

Current children at Faith Village, founded by Paula and David Mahawon in 1996.

planted until God opened the doors for them to go home. They began helping an Oregon pastor establish a second church campus in Sandpoint, Idaho.

To date, David and Paula continue to pray that Asia will open completely from the Covid lockdown so they can return home. In the meantime, David is still overseeing the fourteen churches and pastors in Thailand, Burma, and Malaysia. He meets with pastors online and by phone a couple of times a week, encouraging them, praying with them, and teaching them. Recently, he orchestrated an international Shan leadership prayer conference, which was an immense success.

OUTREACH TO BURMA

David and Paula have been working for the past five years to establish churches in the very unreached country of Burma. In addition to Covid's negative impact on the country, a civil war erupted in May of 2021. David remains in touch with TCI's Burma pastors.

"...people have suffered so much, not only because of Covid and the economy, but because of the civil war with the central government of Burma." Paula Mahawon

Since 2020, thousands of people have died. The doors into Burma have been

Revival at Grand Ronde. Several healed from Covid at home then attended church the next day! Many were delivered.

closed to the Mahawons returning. They are believing that God will change this, so they might be able to resume the TCI work in Burma.

MINISTERING THROUGH WAITING

Over the past several years, Paula has established Trail of Peace Bible School. TOP was designed for the Indigenous peoples of the Americas. David and Paula took the opportunity of being in the States to further this part of their ministry. They have been preaching revival meetings on various reservations in Oregon. Many people have come to Christ, and many have been healed. Praise God! Presently, they are encouraging, helping, and supporting one of the long-time TCI pastors in her endeavors to pioneer a Victory Indian Mission Church in Chiloquin, Oregon, during the summer of 2022. Please be praying about this with them. A good church is desperately needed for the Klamath people.

CONTINUING TRAVEL

David made a ministry trip in November 2021 into Kenya for three weeks. He taught leadership conferences, Bible school classes, and preached at various churches. Kenyan

David Mahawon in Kenya, partnering with Giving Faith Aid and their ministry team.

Revival at Grand Ronde. Many people were healed and delivered.

David is leading a Buddhist lady to the Lord at Victory Church in Thaton.

leaders were tremendously empowered through the ministry of preaching and teaching of the Word of God.

This year, doors have opened wide for the Mahawons into the South East Asian communities and churches in the United States. In December 2021, David and Paula preached on spiritual warfare and leadership at a large

leadership conference in Omaha, Nebraska, with the Karen people from Burma. The Mahawons traveled to Minnesota in April, of 2022. David was asked to be the keynote speaker at the Karen National Leadership Conference.

David and Paula ask for prayer that many doors will open to other U.S. Asian churches.

Shan & Lindsey - Chiang Mai

Shan and Lindsey Mahawon serve as the directors of Faith Village Children's Home and also pastors of Victory Church Thailand's two locations: Thaton and Chiang Mai.

SHAN & LINDSEY MAHAWON

Shan grew up in Thailand with his parents, Pastors David and Paula Mahawon, and his brother Tai. When he was two years old his parents started Faith Village Children's Home, where Shan and his brother grew up amongst the orphans, seeing first-hand how the ministry was run. Growing up, Shan helped with youth group and translation, fully accepting his call into the ministry at age 18.

Around the same time, Lindsey took a mission trip with her family to visit Faith Village, where she met the Mahawons. She immediately felt the call to Thailand, and took several visits to learn the language, teach, and become accustomed to the culture. Shan and Lindsey fell in love, were married in 2013, and moved to Thailand together to pursue full-time ministry. Together they have been doing ministry in Thailand for eight years. They have two daughters Sierra and Lila. Shan and Lindsey direct Faith Village Children's Home with the help of a staff

of locals and missionaries.

The church in Thaton has around 100 people from many tribes and languages. Almost every month new believers and baptisms take place. It is a difficult mission field that is 99% Buddhist, surrounded by temples on every mountain top. The church is strong and healthy, with a great team of leaders.

After four years of pastoring Victory Church Thaton, Shan and Lindsey felt the call to plant another church in Chiang Mai. This was a surprise at first, because they were very planted and content with their roles in Thaton, but God kept on knocking.

FOLLOWING THE CALL

Moving to Chiang Mai to start the church would be a step of faith in many ways. The Thaton staff and elder team would need to grow in their leadership to handle all on-the-ground ministry efforts. Secondly, a new level of faith was required for a larger ministry budget. It would also require faith for the family would need as they

moved away from their home of seven years. Finally, it was 2021, and the Covid lockdowns were still in place. It was not an ideal time to plant a church!

RELIGION IN CHIANG MAI

Chiang Mai is a hub of many tribes and nations, coming to work or study and bringing their Buddhist or animist beliefs with them. Though the city is full of temples, not all Thais hold firmly to the beliefs of their elders. Many have unanswered questions.

Despite there being several churches and many missionaries in Chiang Mai, God put the next generation of Thais on Shan's heart, especially ones who are seeking for answers and not necessarily sold out to the Buddhist religion. Other pastors and churches confirmed the need. They began to imagine a church where this group would feel at home. It didn't look traditional, wasn't held in a church building, and it would be held on a Friday night. The atmosphere would be friendly, with young people laughing

together. With this vision in mind, God opened the door to rent a computer center for an affordable price and the church was launched.

The church has grown from five to forty attendees each week, with more watching the livestreamed service! Their demographic is predominantly young Thai people, but also a mix of families and missionaries. The church has a strong emphasis on community, allowing people to belong and feel at home, even before they believe. God continues to bring people to the church and grow the team of volunteers there.

DREAMING FOR THE FUTURE

In 2022, Shan and Lindsey have faith that the church and its team will continue to grow in impact on the next generation of Thais and other tribal groups in Chiang Mai. They plan to connect with more young people through outreach in the universities. They are praying for more God-connections to double in size! They believe God will use this church as a light in the darkness, in a city and nation that remains unreached, and desperately in need of Jesus!

Faith Village Children's Home

Wollapong and Lek, the new house parents at Faith Village Children's Home.

Faith Village Children's Home

Wollapong grew up in Faith Village as an orphan and is a close friend of Shan Mahawon. He and his wife Lek, have been married for three years, serving in ministry together in a remote village. They have a passion to love, care for, and disciple children, especially those without parents.

THE NEW HOUSE PARENTS

Wollapong and Lek first met in their hometown village, a remote town nestled in the northern mountains of Thailand. Lek grew up a Buddhist, but put her faith in Jesus while she and Wollapong were dating. The two felt a call to serve youth, and began to work at Compassion International in their early years of marriage. They enjoyed their time working with youth, but felt a call to serve in a more full-time capacity, such as at a children's home. At that time, Shan was talking with Wollapong and offered them the opportunity to serve as house parents at Faith Village. As soon as their commitment to Compassion was finished, they moved to Faith Village and began serving as full-

"[Once] we got reacquainted with them and heard their hearts, we knew immediately we wanted to hire them..."
Lindsey Mahawon

time house parents!

The job does not come without its challenges! The children housed at Faith Village come from difficult backgrounds, such as abandoned, abused, orphaned, or neglected. When they first come to Faith Village, they suffer from the effects of their upbringing. Many live in fear, have major attachment issues, and fear of abandonment. Others struggle to believe in a good Father who loves them no matter what.

Wollapong and Lek's love for children is immense, and they carry vision for the children of Faith Village to grow up knowing Jesus, enabling them to succeed in every area of their life. Their jobs are similar to parents -- maintaining their health and educational progress. It is a position that only those who are called can fulfill!

Without Wollapong and Lek, Shan and Lindsey would not feel released to pursue church planting in Chiang Mai.

CHILDREN AT FAITH VILLAGE

Every child has a unique background and story to tell. One of the teenagers, Toon, came to them when he was eight years old. He was found by the police who called and asked if Faith Village could take him in. Toon was fleeing from his abusive father, who would beat him badly. When he first arrived at Faith Village, he was in fear and constantly in trouble. After awhile, Toon settled in to life at Faith Village, and joy returned to his heart. One evening, as he sat next to Shan, Shan asked him, "How are you doing here?" He said, "When I was younger, I lived in fear all the time. Now I don't have that feeling anymore. I don't have to live in fear."

When Wollapong and Lek went to a village to pick up a new orphan, they were told of a little boy named Ken. Ken's mother is in jail and his father is terminally ill, using drugs

Ken, on the right, and Tee one of his friends/brothers at Faith Village Children's Home.

and seeing witch doctors to curb the pain. Ken, at six years old, was left to fend for himself. When at Faith Village, Ken had nightmares every night. Every night at worship, the kids interceded for Ken for two weeks. One night, as they went to pray for him, he stopped them saying, "I don't need prayer anymore. The nightmares are gone!" Praise God for deliverance in Ken's life!

These stories are just two of the many stories of Faith Village children. They are rescued from hopeless situations, without a thought of God, love, or a future. When they meet Jesus at Faith Village, surrounded by the love and care of Faith Village staff, they are given a new life, hope, and a future!

**Hands
on
Houses**

India - Chennai

Don and Margie Cook,
the founders of Hands
on Houses.

Hands on Houses - India

In July 2005, having been based in Hawaii for 10 years, Don and Margie Cook set out for Chennai in Southeast India to begin what has turned out to be a wonderful, scary, but exhilarating adventure.

Don and Margie's objective was to start building houses for the widows and very poor people in villages south of Chennai. The 2004 Tsunami was one of the triggers leading them in this direction. Initially Don and Margie thought they would work in fishing villages along the coast, but they soon found that the greater need was in villages not affected by the Tsunami. Don worked tirelessly to engineer a quick, affordable, tilt-up building that can be built in five days at a cost for only \$4,500.

STARTING TO BUILD

They built the first house on land assigned to a Widow's Assistance program under the leadership of John, a local Vineyard Church pastor. Very soon, a friend of John's, Pastor Jayaseelan, started helping wherever he could. Fifteen years before Don and Margie arrived in India, Jayaseelan had been praying and asking the Lord to send someone to build

houses. Don and Margie's friendship and love for Jayaseelan and his family has been crucial in the work they have been doing in India for the past 13 years. Jayaseelan has often guided them in the right direction and has helped them avoid potential pitfalls due to a lack of understanding of local culture.

One of Jayaseelan's most important pieces of advice has been, "People in the villages will not understand the Gospel unless they experience how much we care". And care they have. At first it was shown through consistency. Continuously returning to communities to complete what was started. Several other agencies had been to the same area of Southeast India, begun good work, but had not brought it to completion. As a result, the locals were hardened and skeptical.

2004 Tsunami

Chennai suffered greatly from the floods in 2004. The effects caused a large increase of residency in the slums, creating over 1,125 additional slums across the city.

GROWING RELATIONSHIPS

Don and Margie secured a long-term rental house and are living there over half of the year – traveling to raise funds the other six months. They are now a local fixture, known by the shopkeepers and taxi drivers. Everything in India is done through relationship and is based on trust. Don and Margie have taken the time, and copious cups of tea and coffee, in order to obtain needed materials for the houses.

HOH also works among the Irula people, a frequently exploited tribal group outside of India's traditional caste system. Last year, HOH completed a village of 26 homes for Irula refugees, some

of whom had been rescued from bonded labor. HOH also started a second Irula village project. This project empowered small business development projects to provide sustainable employment for some of the widows.

LOCAL WORKERS

HOH builders come from the same villages in which HOH work. Some are also local pastors who "tent make" with HOH during the week. All in all, HOH provides regular employment to about 30 local workers and artisans.

PANDEMIC & LOCKDOWN

During 2020 and into 2021, very little building took place in India due to the local lock-

downs, and short supply of building materials. HOH put aside donation money and waited. In the middle of 2021, HOH acquired a new partner, Ebenezer, and he has been going full steam ahead building! Ebenezer has connections throughout India and surrounding countries! HOH has built their first house in Sri Lanka and in Nepal with him! Then, mid-December 2021, Ebenezer brought attention to a situation in which a church congregation needed help!

NEW CHURCH BUILDING

Last Christmas, the Kottaraveedu Gundala Colony Church sat outside their old, half-finished, condemned building, that should have been finished, not knowing when or if they would ever again have a church building. HOH took on the project with Ebenezer. This newly built church will not only bless the small community of believers, but will demonstrate the goodness of our God to the many Hindus who live in this community!

HOUSE IN NEPAL

A few days after Christmas of 2021, Don and Margie dedicated Sudha Sah's House, the first HOH house built in Nepal! During the ceremony, many pastors prayed over the house as Sudha Sah cried tears of joy over her new home.

SUPPORT WITH PRAYER

Don and Margie ask that you partner in prayer with them for donations to continue the ongoing work of Hands on Houses as new opportunities arise and for the new partners.

The old church building with the Kottaraveedu Gundala Colony Church congregating outside.

The church members are enjoying a humble, but delicious Christmas meal outside their new church.

Children happy and eating Christmas dinner inside the roofless, new church.

Community members in Nepal gather to worship and praise God around the beginning of the new house from HOH.

Two of the many widow houses in India built by HOH. Dedications are a significant milestone for widows, as pastors pray and the community worships.

July 2021, Don and Margie visited Zambia, Africa, for the first time. HOH built their first house for a widow, Emelda, and her grandchildren.

U.S.A - Fife, WA

Pastor Dwain and Joel Wolfe, Senior Pastors of New Horizon Church.

New Horizon Outreach

Pastors Dwain and Joel Wolfe's vision for the NHC Outreach Team is to discover and rescue the lost or forgotten by a simple reminder of God's provision, mercy and love.

FOOD BANK

NHC Outreach is an integral part of our church. We have been involved in many homeless outreaches over the years. When Covid hit in 2020, we became an emergency food site for Pierce County, hosting a weekly food bank. We fed well over 100 families every week. This ministry continues today. As we pray with every person that comes through, we have seen salvations and miracles on a weekly basis. Our impact is deeply felt in the community every week.

Freely you have received, freely give".
Mathew 10:8

COMMUNITY OUTREACH

NHC also has yearly outreach events including Trunk or Treat, Easter Fest, Night of Giving and a community Thanksgiving dinner. Hundreds of people from the community come to our campus for family-friendly holiday-

centered events, hear the gospel and feeling the love and peace of God. Our prayer

The NHC Food bank has supported the community through the pandemic and continues to do so.

and prophetic teams are active at each of these events, interacting with scores of guests.

Outreach to our community is imperative as we work diligently to break down the walls that so easily constrain the presence of God. We are devoted to doing everything to expand the Kingdom at home and abroad.

Every Easter, we invite the community to Easter Fest. It's filled with fun as we share the Gospel.

Noche de Entrega - NHC invites the community to receive Christmas gifts, dinner, and the Gospel.

MISSIONS NHC

U.S.A - Fife, WA

One of New Horizon's short-term mission teams in Thailand, 2019.

Short-Term Mission Trips

Short-term missions impact every member who makes the trip. There is nothing like the feeling that you made a difference and that difference will outlive your life.

Compassion beats in the heart of our God and the growth of our compassion towards others makes us more like Him day by day. Here are a few of our past mission trips and their accomplishments:

2013 THAILAND

NHC took a team of 16 people to Thailand to visit Faith Village for the first time as a church. We helped paint their church and kids' rooms and assisted with outreach in the mountains of Thailand. We had the opportunity to share Christ in a Buddhist primary school, as well as a drug rehabilitation center.

2014 UGANDA

NHC split it's team, with half heading to Seguku to teach Restored Life to the pastors of the area, while the other half traveled north to spend three days in the Sudanese refugee camp, called the Rhino Camps. No other team had been allowed to stay there overnight. We held a major medical outreach and shared the gospel at the school. We also held a crusade that helped kick off a church in Arua, Uganda.

2015 UGANDA

The NHC team took an extended layover in Amsterdam where we held healing services with Pastor Rolf and his team. From Amsterdam, we headed to Uganda to start work on the maternity clinic with Justus in Mutukula. We also hosted medical outreach in a nearby refugee camp on the border of Tanzania, and taught our Restored Life curriculum to local pastors.

2016 THAILAND

Our NHC team traveled once again to Thailand and started the first phase of building a dry goods store by prepping and pouring the concrete floors. We replaced the roof of the dining hall and hosted a three-day soccer camp that reached kids from all over the community of nearby Fang. In addition, we did a lot of evangelism, holding special meetings, and saw many new people come to church.

2017 UGANDA AND KENYA

NHC visited Kenya for the first part of our trip. We assisted with outreach and support of the local pastor through a medical outreach, evangelism,

and through holding special services. From there we headed to Uganda to continue work on the maternity clinic in Mutukula, as well as holding medical outreach for the local community members.

2019 THAILAND

NHC took a team of 18 to Faith Village. We transformed the coffee shop and dry goods store with landscaping and a parking lot. They are now full-fledged businesses providing sustainable income for Faith Village. Our house visits and ministry at the church yielded salvations and breakthrough.

Joel Wolfe praying over one of the many women that visit the Maternity Clinic in Mutukula, Uganda.

2022 AFRICA

A small team of 5 from New Horizon made its first post-Covid mission trip to Uganda, visiting all the sites that had been receiving funds from NHC missions. Each site was found to have come through the two year lockdown well. These sites included: Divine Hope Maternity Clinic, Bukumula Schools, Buzzi Women's Empowerment Center, WOMF mission house, and Segiku Church. All the projects were completed and gained ground.

MISSIONS LOCAL

U.S.A - Graham, WA

Pacific Northwest Adult & Teen Challenge is a local branch of the Teen Challenge international ministry. They have affected the lives of hundreds of addicts, freeing them from addiction by the power of

Adult & Teen Challenge

Jesus Christ. Addicts and other troubled youth pour into the center and are delivered by God's power. Based on strong Christian principles, the intensive program runs from 6 to 14 months. Residents come from the streets, detoxification facilities, hospitals, or jails. Some are referred by pastors and counselors or court-ordered into treatment by judges. PNW Adult & Teen Challenge teaches that the key to abstinence from substance abuse is a personal relationship with Jesus Christ.

Their success rate is unrivalled. One skeptical psychiatrist observing the program remarked, "It seems to me you're just using Jesus as a crutch." "Then give me two of them," a resident of the center responded. "What is the program?" the psychiatrist asked. "God in the morning, Jesus in the afternoon, and the Holy Ghost at night," the resident replied. This ministry impacts this region and the need for freedom from addiction.

"I arrived broken, separated from my children, and addicted to drugs and alcohol. God is my cornerstone; He rebuilt my life..." – Sam

DAVID WILKERSON

David Wilkerson is the founder of an international drug rehabilitation program called Teen Challenge, which has one of the highest success rates anywhere in the world. Since its first center opened in New York in 1960, Teen Challenge has grown to nearly 250 centers in 48 states and over 1,000 centers in 95 countries. In Puerto Rico the organization is building an AIDS hospital, the first of its kind. David Wilkerson also founded a global evangelistic ministry, World Challenge. The Pentecostal preacher remained what he was for over 40 years -- a man dedicated to preaching the gospel in the heart of New York City. He pastored Times Square Church in Manhattan, which he founded in 1987, until his death in April of 2011.

Care Net of Puget Sound

MISSIONS LOCAL

"Freshly unemployed, homeless, and in the throes of a toxic relationship, abortion seemed like the only option" – Kaeley

Care Net offers hope by providing compassionate practical care, accurate information, biblical truth, and life-affirming resources for pregnancy, sexual health and integrity, and abortion recovery. They are fiercely committed to the value and dignity of every life. Ninety-seven percent of it's pregnant clients who have an ultrasound in Care Net centers choose life for their babies. To the three percent that do not, Care Net offers them continued

support. They are welcomed back to Care Net centers for additional services and resources, anytime they are needed. Care Net's Healing Tide program provides a safe, confidential, and non-judgmental place for women and men to process post-abortive emotions, so they can begin the path toward healing and restoration. Care Net is about the holistic care of women, men and families in need. When people find themselves in difficult

U.S.A - Puyallup, WA

situations, Care Net is there to support them in every step of their journey. They offer support and listening ears to every man or woman that walks through their doors. One day at a time, Care Net is transforming communities through the love and support of Jesus.

HISTORY OF CARE NET

Care Net was influenced by the leadership of former U.S. Surgeon General Dr. C. Everett Koop and Christian apologist Dr. Francis Schaeffer. The organization was founded in 1975 as the Christian Action Council by Dr. Harold O. J. Brown, with its primary focus to engage evangelicals in responding to the "abortion crisis." The Christian Action Council opened its first crisis pregnancy center in 1983. In the 1990s, the organization's mission shifted toward supporting anti-abortion crisis pregnancy centers; in 1999, the name was changed to Care Net. Today, Care Net has more than 1,100 affiliated pregnancy centers across North America. Roland C. Warren, former president of the National Fatherhood Initiative, joined Care Net as president and CEO in 2012.

Missions Giving

2022-2023

INTRO

Following is a listing of financial opportunities to further missions at home and around the world. New Horizon gives out of our general and missions income towards these ministries to fulfill our monthly commitments to our missionaries. If you desire to give to general missions monthly support, you can make a "general missions" designation on your pledge card, which allows our monthly giving to missionaries to increase.

PLEDGES *

***“NOW GO IN MY AUTHORITY
AND MAKE DISCIPLES OF ALL
NATIONS, BAPTIZING THEM IN
THE NAME OF THE FATHER, THE
SON, AND THE HOLY SPIRIT.”
MATTHEW 28:19***

The missions mandate of New Horizon flows out of Jesus' commissioning of every believer in Mathew 28:19. We are to **GO** into all the world and preach the gospel. As a church we are committed to doing all we can to fulfill this directive.

New Horizon is committed to supporting international missionaries that are personally connected to us. Time spent building relationships with these missionaries, both in-person here in Fife and on-location abroad, allows us to understand their vision, as well as their needs. We love to intertwine mission project giving with short-term mission trips, allowing us to participate in bringing dreams to fruition.

We are also committed to helping those in our local area. We have selected ministries that are successful in reaching into marginalized populations. Our own New Horizon Outreach Teams are busy on a weekly basis mobilizing our body to physically and spiritually care for our community.

It is our prayer that you consider how you can be a part of missions at New Horizon. We hope that you prayerfully consider joining us by giving, going and doing. As you become involved and allow your heart to be moved to action, you will find yourself living an adventure that is far greater than you can imagine!

**IMPACTING OUR
COMMUNITY AND
